Vacuum Gauges:

Magnahelic Gauge

Compact Photohelic gauge

Bracket for Mag

Magnahelic - Reads pressure differential of the filters

Photohelic - Reads pressure differential of the filters and sends a signal for the pulse jet cleaning to activate

Pressure Differential - Pressure differential is the difference between the clean and dirty side of the filters

	Description	Eurovac Part No.
Magnahelic Gauge <i>(New separators will come with two 1/4" connections. If it is an existing system, customer will need to drill holes in separator and add weld couplings)</i>	0-25" WC Magnahelic Gauge NOTE: Signal flag provided - see below and add price	HAR-BAK-20250000
	Eurovac I Separator Bracket For Magnahelic Gauge	000-000-MISC0000
	Adjustable Signal Flag For Dwyer 2000 Series Signal flag indicates when the pressure differential has become too high and filters need replacement	HAR-BAK-2000ASF0
